

# COMBINE HARVESTER 4LZT-5.0QC

## ADVANTAGE INTRODUCTION

- Original patent technology of the header conveying reverse device in China
- The stainless steel is used for the threshing system
- The miscellaneous auger drive increases the diameter of the lifting cylinder

More Advantages

Rated HP	73.5(100)kw
Feeding capacity	-
Cutting Width	-
Rated speed	2400RPM
Gauge	1150mm
Minimum ground clearance	300mm
Threshing Drum (Diameter×Length)	-
Main roller(O.D.×length)	Φ538×1290mm
Auxiliary roller(O.D.×length)	Φ538×662mm
Operation Productivity	0.33-0.7hm <sup>2</sup> /h
