

SUGARCANE HARVESTER AC90

ADVANTAGE INTRODUCTION

- Suitable for harvesting sugarcane field of single, double row
- Pure working efficiency surpass 50t/h
- Driving power is 20% larger than other counterparts
- 408hp engine, engine is more powerful
- The system of harvester adopts software control

Suitable ridge spacing	≥1500mm
Suitable ridge height	0-300mm
Suitable slope	≤10%
Row spacing	-
Feeding capacity	> 9kg/s
Net hourly productivity	≥50t/h
Net work hour productivity	-
Loss rate	≤7%
Impurity rate	≤6%
Sugarcane acceptability rate	≥90%
