

SUGARCANE HARVESTER AS60

ADVANTAGE INTRODUCTION

- Suitable for working on slope below 10° and field over 1.5m
- Three-section bended conveyor, quick release structure that straight and bend type
- Front feed roller is driven by two hydraulic motor
- Newly added line-keeping system

Suitable ridge spacing	≥1500mm
Suitable ridge height	0-500/0-300mm
Suitable slope	≤10%
Row spacing	-
Feeding capacity	> 6kg/s
Net hourly productivity	≥15t/h
Net work hour productivity	-
Loss rate	≤7%
Impurity rate	≤8%
Sugarcane acceptability rate	≥90%
