

COMBINE HARVESTER TE100

ADVANTAGE INTRODUCTION

- Hydrostatic drive travel system is applied
- The wheat header is increased to 4 m width
- Multi-functional mono-lever control
- Single longitudinal axial flow threshing unit
- Rear-mounted free-swinging knife slaw cutter for good chaff effect

More Advantages

Rated HP	140kw
Feeding capacity	-
Cutting Width	-
Rated speed	2200RPM
Gauge	1150mm
Minimum ground clearance	300mm
Threshing Drum (Diameter×Length)	φ620×3230mm
Main roller(O.D.×length)	-
Auxiliary roller(O.D.×length)	-
Operation Productivity	0.7-1.5hm ² /h
