

COMBINE HARVESTER TF120

ADVANTAGE INTRODUCTION

- 260hp Yuchai engine with strong power, environmental friendly and high efficiency;
- Double longitudinal axial flow threshing separation technology,
- The cleaning area is 4.3m²,the cleaning efficiency is high;
- The grain tank is enlarged with a volume of 7.5m³
- Hydraulic four-wheel drive chassis realizes convenient and fast stepless speed change
- Harvest corn kernels, soybeans, wheat and other crops

Rated HP	191kw
Feeding capacity	12Kg/s
Cutting Width	5200mm
Rated speed	-
Gauge	-
Minimum ground clearance	510mm
Threshing Drum (Diameter×Length)	480×3188mm
Main roller(O.D.×length)	-
Auxiliary roller(O.D.×length)	-
Operation Productivity	0.41-1.95hm ² /h
